

Nano Forum 2026

October 1st, 2026 | 9:00 AM to 2:00 PM
MSC 3707 & 3705

Nano Forum 2026 is a one-day gathering that brings together industry professionals, researchers, faculty, and students working across nanotechnology, advanced manufacturing, electronics, and related disciplines. The forum pairs real-world industry insight with emerging student research to create a valuable environment for recruiting, knowledge exchange, and community building.
